Student Legal Services
2014-15 Assessment and Learning Outcomes Report

Overview
Student Legal Services (“SLS”) offers students free and confidential consultations with an attorney for advice and guidance related to their legal questions, rights, and obligations. Areas of law include landlord-tenant, criminal, traffic and alcohol citations, small claims actions, credit issues and collections, auto and health insurance, accidents and personal injury, consumer fraud, technology and privacy issues, general contract law, basic estate planning matters, and family law. SLS provided 934 client consultations in 2014-15 (up from 857 in 2013-14) to help students resolve legal issues and to foster the student learning outcomes described below.

SLS conducted two client surveys (Dec. 2014 and May 2015) to assess four learning outcomes and satisfaction with the service. The survey went to 387 SLS clients with a valid email address on file.¹ The response rate was 34.9%.

Learning Outcome Assessment Results

Learning Outcome #1: After consulting with SLS, students will understand the legal issues involved in their cases.
Almost all student clients (97.1%) agreed or strongly agreed that consulting with SLS improved their understanding of the legal issues related to their cases. Representative comments included the following:
- I learned my rights as a tenant and what I could do on my part concerning my legal issue.
- I understood actions I could take to protect myself.
- My understanding of separate vs community property going into a marriage in California was changed.
- I gained an understanding of what situation I was in legally, and specific things I needed to do to address it.
- I was in an extremely stressful situation and Mr. Lucia helped me understand my rights and how to go about the issue with the landlords. I am glad that worked and I could continue staying in the same house.
- I was unaware of my legal options before consulting with Mark. I was much more well-informed after our conversations.
- Before my consultation with SLS, I assumed I had no further options. Afterwards, I understood my rights and knew that I actually had multiple options.
- I was provided with good information which allowed me to more clearly understand my position and choices.
- I became more aware of laws in place in Oakland to protect tenants from landlord retaliation.
- Mark explained clearly the statutes/codes associated with my issue. I felt like I better understood the laws governing the thing I was concerned about.

¹ To preserve attorney-client privilege and protect the confidentiality of SLS clients, the survey was administered solely by the Director of SLS, Mark Lucia, through a private account. All survey results are aggregated and presented without link to any identifying information of respondents. Survey recipients were advised that (i) responding was completely optional and (ii) short-answer responses should be generalized enough to protect any personal or confidential information that the clients did not want disclosed (even if not attached to any other identifying information). Not all SLS clients provide an email address (it is not mandatory to do so), hence the number of survey recipients is typically lower than the total number of SLS clients.
Learning Outcome #2: Students will identify and understand the legal options related to their cases, and the relative merits of those options.

SLS does not directly represent students, so it’s crucial that they understand the next step(s) to address their legal issues. Clients (97.0%) widely agreed or strongly agreed that they had a better understanding of their options after consulting with SLS, and 91.9% agreed or strongly agreed they knew the first “next step” to take in their case. Illustrative responses included:

- I understood the case overall, the next steps or possible solutions, and what to consider in making decisions.
- I understood my options on how to take care of my case, and how "realistic" it was to follow through.
- Mark helped me understand what exactly the other person involved was threatening to do, what the actual likelihood was of them to do that, what my options were, and how I could follow through on those options. He provided several resources and was really helpful.
- There were available options that I had never considered before consulting with SLS.
- The attorney offered me several possibilities and kindly wrote a letter to get the issue fixed.
- Before, I only knew of the non-legal methods in handling my situation, but Mark provided information about legal points that could help me, as well as examples of previous similar cases in which it actually worked.
- After consulting with SLS, I realized I was undervaluing "non-legal" options, which ultimately resolved my issue.
- Mark did a great job of contextualizing our situation and presenting us with a plan of action.
- Mark basically walked me through everything, outlining what I could do but also what would be most beneficial/feasible, given my preferences.

Learning Outcome #3: After consulting with SLS, students will know how to navigate a problem/institution that they might not have otherwise known how to navigate.

Students are often unfamiliar with legal matters, so SLS helps them work through a new form of problem or bureaucracy. 89.6% agreed or strongly agreed that SLS helped them navigate an issue or institution they might not have known how to navigate:

- I knew exactly how to follow up on my auto insurance claim, and learned that I had a much larger potential legal claim than the insurance company was indicating to me.
- I was able to take action in writing a termination letter to get my deposit back.
- I felt empowered as a citizen and as a student.
- I knew how to file a petition with the Rent Stabilization Board at Berkeley.
- I have a better understanding of how my case will be viewed by a judge.
- This situation has made me think more about what to look for in terms of housing situations and feel more confident dealing with scary landlords who write angry emails.
- I drafted and implemented a premarital agreement.
- I successfully solved the problem of subletting.
- Without consulting SLS, I would have ended up owing about $17,000 in property damage to my landowner, whose claim to my role in the situation had very little credibility. I am incredibly grateful for the advice Mark offered, because I would've had no choice but to bow to the whims of my extortionate landlord without it.
Learning Outcome #4: After consulting with SLS, students will feel better equipped to handle similar situations in the future.

Working through a legal question or problem with SLS may foster transferable skills that apply to future student experiences, legal or otherwise. 90.4% of SLS clients agreed or strongly agreed that their work with SLS helped prepare them for similar future situations:

- I now know the evidence I need to collect.
- I have advised others in situations involving owner move-ins and rent control from my experience after being advised by SLS.
- I now know that the first step is to make a demand letter and that keeping evidence about the case is also crucial.
- I know now to better negotiate contracts before signing - making sure to get everything in writing instead of just verbally.
- I feel well versed in small claims lawsuits as a result of my experience and my conversations with Mr. Lucia. I would feel quite confident tackling a similar situation in the future.
- I am more aware of my rights as a tenant and I am better equipped now to defend myself of any other landlord overstepping their authority and power.
- I know where to look for help.
- I organized and documented information about my car accident, and the related claim. Mark helped me do this.
- I am definitely more aware and ready in case a similar event was to occur again.
- I could go through the insurance claims process again if I needed to, and would feel much more knowledgeable and prepared.

General Assessment/Survey Results and Observations

Student success and retention

In addition to four specific learning outcomes, the SLS mission emphasizes a broader learning goal: 

**SLS will support student retention by improving students’ ability to stay in school via high-quality counseling and assistance with their legal issues.**

SLS fosters student success at Cal by providing counseling and assistance that enable students to focus on school priorities and limit the potential distraction created by legal matters. 97.8% agreed or strongly agreed that the legal issue they brought to SLS was causing them stress, 75.6% agreed or strongly agreed that it was distracting them from their studies, and 20.6% agreed or strongly agreed that without legal help they would have considered leaving school. Of those students who agreed with the latter two statements, 89.9% said “Yes” when asked whether the assistance they received from SLS improved their ability to stay in school and/or to focus on their studies. This is particularly important given that students from underrepresented ethnic minority (UREM) groups and lower-income families consult with SLS in much higher numbers than their representation in the overall student population, and that 83.0% of respondents said that if not for SLS, they would have no other access to legal counseling. Student comments describe the variety of ways that SLS offers this support:

- With help from Mr. Lucia I had the legal knowledge needed to confront the situation and resolve/minimize it in a way that allowed me to lend more time and energy to studying.
- I was very stressed before I received legal help from Mark, and he was able to make me feel much better about my situation so that I could focus on other things.
- Mark put me at ease, both financial and emotional.
- I was able to seek a move away request that would allow me to continue at UC Berkeley and allow me to continue to have all my family together.
- SLS took a lot of stress out of the entire situation and removed a lot of question marks that were just constantly floating around in my head.
• It took my focus off my legal matter because his advice helped me understand that the problem was not as serious as it originally seemed.
• As a mother and a student, the unforeseen issues were difficult to handle. Mark’s help and his valuable advice helped me to stay focused because I realized that my problems can actually be resolved.

**Student financial support and recovery**

*SLS also helps students financially:* 32.8% of respondents recovered money that they would not have otherwise collected without help from SLS. Twenty-four students specified amounts they actually recovered or saved with SLS assistance (several matters were still pending); these amounts ranged from $200 to $17,000, and averaged $1,551.

**Student satisfaction with service and sense of connection with the University**

Client satisfaction levels with SLS are very high. 99.3% of respondents agreed or strongly agreed that “SLS is a worthwhile/beneficial service” (with 91.1% strongly agreeing), and 99.3% agreed or strongly agreed that they would recommend SLS to other students in need of assistance (with 91.1% strongly agreeing).

72.2% of SLS clients agreed or strongly agreed that as a result of their experience with SLS, they feel more connected to the University. Another 93.2% agreed or strongly agreed that as a result of their experience with SLS, they are more aware of resources available at the University. • The beginning of my semester was really difficult and full of stress because of my problem. I was able to recover little by little only because of Mr. Lucia’s advice.

Areas for improvement
Students identified three general areas where they would like to see potential enhancements of SLS:
• More publicity/advertising of SLS.
• Shorter wait times for appointments (certain times of year – typically August-October and March-April – are impacted at SLS, and appointments can be delayed up to a week).
• Attorney representation and appearances in court on behalf of students (or a student legal defense fund for such outside representation), and additional local referrals.
